NITHIN PRANAV

AI Product Manager | ML & AI | Agentic Workflows | Data driven product strategy

nithin.pranav@gmail.com Ph: +4917635316685 Linkedin Portfolio

SUMMARY

Product Manager in enterprise B2B SaaS (TeamViewer, SoSafe) with a track record in onboarding, retention and partner integrations. Owns roadmap decisions backed by metrics, experimentation and customer discovery. Hands-on with agentic AI: building and evaluating agent prototypes across LLM tool calling, guardrail design, eval frameworks and multi-step workflows that take real actions in connected apps.

EXPERIENCE

Product Manager
06/2025 - 06/2026

TeamViewer — Berlin, Germany

- Owned **roadmap prioritization** for an enterprise remote connectivity platform, balancing customer needs, security, reliability, and scalability across global B2B accounts.
- Redesigned the core onboarding experience end to end, cutting time-to-value from 14 days to 3.
- Led a cross-functional lifecycle-intervention initiative that **reduced enterprise churn by 12% (Q4 2025**).
- Supported API optimization work that cut partner integration time from 3 weeks to 1 week.
- Fixed friction in authentication and device provisioning flows for new enterprise customers (Q3 2025). Reducing onboarding setup failures by **27%** and improving first-time activation.
- Conducted 12 customer interviews to shape a growth initiative for SMB segments. Identified recurring onboarding and workflow pain points that informed a prioritized growth initiative and an MVP proposal.
- Built dashboard and workflow prototypes using no-code tools, **shortening iteration cycles** by **10–20%** and accelerating product validation.
- Automated 5 compliance and audit workflows, cutting manual effort by 6–8%. And saving approximately **10–15 hours per month**.
- Led the end-to-end redesign of the core onboarding experience, reducing time-to-value from **14 days to 3 days (79% reduction)**.

Product Analyst
07/2023 - 06/2025

TeamViewer — Berlin, Germany

- Identified and closed a funnel leak in feature onboarding, recovering an estimated **8% lift in activation lift.**
- Redesigned SMB onboarding through user research and A/B testing, lifting first-**session completion from ~82% to ~85%**.
- Defined KPIs and scoped A/B tests with PMs, engineers and UX, and mentored newer analysts on measurement design.

Product Operations
06/2021 - 06/2023

SoSafe — Berlin, Germany

- Cut customer **escalation response time by 4%** [add hours before and after] with a structured support-to-engineering triage process.
- Owned release co-ordination in Jira across engineering, sales, and support for cybersecurity awareness product updates.
- Bridged customer-facing teams and product/engineering, surfacing recurring pain points that fed prioritization.

KEY PROJECTS

Daily Workflow Agent

1. **LLM Tool calling** across Gmail and Google calendar
2. **Human-in-the-loop guardrail**: Agent must confirm before booking/altering events.
3. Shipped a dashboard with habit tracking, badges and real-time sync across desktop and mobile.

Tanzania Tourism Expenditure Model | LightGBM

1. Improved R^2 from 0.35 to 0.45 using Bayesian target encoding, log-transformed targets and outlier capping.

STRENGTHS

Machine Learning & AI

XGBoost, NLP, Transformers, Random Forests, PyTorch, TensorFlow, scikit-learn

AI Agents

LangChain, LangGraph, LLM tool calling, agent evaluation and guardrails

Certification:

Hugging Face AI Agents Fundamentals

EDUCATION

ESCP (École Supérieure de Commerce de Paris)

Masters in International Sales Management (M.Sc.)

2018 - 2021 Berlin/Paris
