NITHIN PRANAV

Product Manager | AI Agents & Evaluation | Customer Discovery & Experimentation

@ nithin.pranav@gmail.com Ph: +4917635316685 Linkedin Portfolio

SUMMARY

Product Manager in enterprise B2B SaaS with a track record in onboarding, retention and partner integrations. Contributed to roadmap decisions backed by metrics, experimentation and customer discovery. Hands-on with agentic AI: building and evaluating agent prototypes across LLM tool calling, guardrail design, eval frameworks and multistep workflows that take real actions in connected apps.

EXPERIENCE

Product Manager
06/2025 - 06/2026

TeamViewer — Berlin, Germany

- Contributed to **roadmap prioritization** for an enterprise remote connectivity platform, balancing customer needs, security, reliability, and scalability across global B2B accounts.
- Supported the end-to-end redesign of the core onboarding experience which cut time-to-value from **14 days to 3 (79% reduction).**
- Supported a cross-functional lifecycle-intervention initiative that **reduced enterprise churn by 12% (Q4 2025).**
- Helped fix authentication friction and device provisioning flows, contributing to a **27% drop in onboarding setup failures** and better first-time activation.
- Conducted 12 customer interviews, **identifying recurring onboarding** and workflow pain points that shaped a prioritized growth initiative and an MVP proposal.
- Built dashboard and workflow prototypes using no-code tools, **shortening iteration cycles** by **10–20%.**

Product Analyst
07/2023 - 06/2025

TeamViewer — Berlin, Germany

- Identified and closed a funnel leak in feature onboarding, recovering an estimated **8% lift in activation.**
- Redesigned onboarding through user research and A/B testing, lifting first-**session completion from ~82% to ~85%**.
- Defined KPIs and scoped A/B tests with PMs, engineers and UX, and mentored newer analysts on measurement design.

Daily Workflow Agent - Project
08/2026 - Present

LLM Agents, Google Workspace, Supabase

- Built an **AI assistant** that replaces chat replies with interactive Generative UI cards, such as one-click calendar approvals and priority alerts.
- Designed **human-in-the-loop guardrails** requiring explicit confirmation before the agent sends emails or changes schedules.
- Set up **multi-tier LLM routing** (Groq Llama 3.3 primary, Gemini and local Ollama as fallbacks), keeping time-to-first-token under 400ms while avoiding quota failures and reducing cost.
- Added **habit-formation features**, including weekly milestone badges, screen-time tracking and a mascot that reflects real-time task progress.
- Designed and shipped an **agent reliability scorecard** (tool precision, guardrail compliance, ambiguity clarification), reaching a 100% pass rate across 15 test cases, including send, book and delete guardrails.

EDUCATION

ESCP (École Supérieure de Commerce de Paris)

Masters in International Sales Management (M.Sc.)

2018 - 2021 Berlin/Paris

STRENGTHS

Machine Learning & AI

XGBoost, NLP, Transformers, Random Forests, PyTorch, TensorFlow, scikit-learn

AI Agents

LangChain, LangGraph, LLM tool calling, agent evaluation and guardrails

Certification:

Hugging Face AI Agents Fundamentals

EXPERIENCE

ACTINDO AG
06/2021 - 10/2021
GTM Intern

SENTRYC GmbH
10/2021 - 03/2022
GTM - Sales

SOSAFE GmbH
04/2022 - 06/2023
GTM - Sales (AMS & MEA)
